T-02428A-10-0468

Re: AT&T Communications of the Mountain States, Inc.
Docket No. T-02428A-09-

Enclosed for filing with the Commission are an original and thirteen (13) copies of revisions to AT&T Communications of the Mountain States, Inc.'s Private Line Services Tariff. This filing introduces Ultravailable Network (UVN) Service and Wavelength Private Line (WPL) Service into the Private Line Services Tariff-Schedule 9 (Interoffice Channel).

The effective date of this filing is December 15, 2010.

There is no customer notice provided since these are new services.

The following tariff pages are included with this filing:

14. AT&T Ultravailable[®] Network (UVN) Service

(N)

14.1 General

AT&T Ultravailable Network Service is a fully managed, high-speed, optical transport service that provides custom optical networking solutions for interconnecting customer's data centers and business sites in a Metropolitan Area Network (MAN) environment with the ability to extend the MAN into the WAN. Customers have visibility into their network performance via the AT&T BusinessDirect[®] portal and Ultravailable NetView, along with a dedicated Lifecycle Manager throughout the duration of their contract.

AT&T UVN offers inter-connection to other ILEC/CLEC's Co-location facilities, carrier hotels, AT&T's IDCs, or any other AT&T provided service, enabling customers to utilize UVN for applications such as but not limited to:

- Disaster Recovery
- LAN extension
- Disk mirroring

AT&T UVN offers these "high-availability network" services to customers and provides multi-protocol support. UVN supports multiple protocols concurrently on the same fibers to interconnect enterprise servers. Supported protocols include:

- FICON
- Fiber Channel
- Fast Ethernet
- Gigabit Ethernet
- DS-1/DS-3
- OC-3 through OC-192
- 10GE LAN/WAN PHY

AT&T UVN integrates SONET Synchronous Optical Network and Dense Wavelength Division Multiplexing (DWDM) technologies into a single end-to-end network solution. UVN uses Dense Wavelength Division Multiplexing to allow multiple frequencies or wavelengths of light that can be used to carry up to 44 different streams (or channels) of data, each up to 10 Gbps. UVN can traverse LATAs and state boundaries (Interstate).

14.1.1 UVN Design

AT&T Ultravailable Network (UVN) is a custom designed solution based upon specific customer requirements.

SECTION 14
ORIGINAL PAGE 2

14. AT&T Ultravailable[®] Network (UVN) Service

(N)

14.1.2 UVN Availability

AT&T Ultravailable Network (UVN) is a domestic AT&T product and is offered subject to the availability of the facilities and equipment required to provide the service. UVN Service may only be purchased under this tariff by customers whose traffic on the service will be at least 90% intrastate in nature.

UVN service can support both intrastate and interstate traffic, and is available for purchase under AT&T's Interstate Service Guide by customers whose traffic on the service will be more than 10% interstate in nature.

15. AT&T Wavelength Private Line (WPL) Service

(N)

GENERAL

AT&T Wavelength Private Line Service (WPL) is a managed, high-speed, optical transport service that provides custom optical networking solutions for interconnecting customer's locations, data centers and business sites in a Metropolitan Area Network (MAN) environment with the ability to extend the MAN into the Wide Area Network (WAN). AT&T WPL offers inter-connection to other carrier Co-location facilities, carrier hotels, AT&T's IDCs, or other AT&T providers.

AT&T WPL supports the transmission of multiple protocols concurrently on the same fibers. The supported protocols include:

2.5 Gbps Wavelengths
Gigabit Ethernet
10 Gbps Wavelengths
10GE LAN/WAN PHY

AT&T WPL utilizes Dense Wavelength Division Multiplexing (DWDM) technologies to allow multiple frequencies or wavelengths of light that can be used to carry up to a maximum of 44 wavelengths (or channels) of data, each up to 10 Gbps. WPL can be designed to traverse both LATAs and state boundaries (Interstate only).

WPL DESIGN

AT&T WPL is an unprotected, point to point, custom designed service solution based upon specific customer requirements.

WPL AVAILABILITY

AT&T WPL is a domestic U.S. service and is offered subject to the availability of the facilities and equipment required to provide the service. WPL Service may only be purchased under this tariff by customers whose traffic on the service will be at least 90% intrastate in nature. WPL service can support both intrastate and interstate traffic, and is available for purchase under AT&T's Interstate Service Guide by customers whose traffic on the service will be more than 10% interstate in nature.
